# NEC Impressive at first sight
viewneo and NEC

The Single Board Computer

A fully functional digital signage player
– directly integrated in a NEC display

You can start your individual digital signage system with this first industry-wide consistently used "Single Board Computer" (OPS-PCAF-WS), which is a neat and hidden integration solution with the NEC display.

Our viewneo application can be pre-installed on the NEC digital signage player upon delivery.

Simply switch your high performance displays on and start out with your digital signage system.

NEC **Made for the big ideas**
– quick and easy

Your advantages at a glance

✓ Integrated digital signage player (OPS-PCAF-WS)

✓ Optimized for 1080p video resolution

✓ Straightforward Installation
